30. Wrap another section of yarn around the ruler, between the sections of tape.

31. Remove the tape and tie a knot around the wrapped yarn with the short section of yarn.

32. Gently remove the yarn from the ruler.

33. Push your needle and thread through the knot.

34. Stitch the hair to the forehead of your doll.

Now your doll is complete!

If you decide to make her a friend, consider altering the pattern slightly by making the dress a little wider and the face a little rounder.

Print the pattern from the last two pages of this document and tape them together before cutting the pieces out.
